## Summary

Former accountant with tech industry experience, skilled in Javascript, HTML, and CSS, with numerous libraries, frameworks, and tools.

## Projects

**Underground Macaron** | undergroundmacaron.com — Apr 2021 - present
- Designed ecommerce bakery site allowing users to custom order French macarons
- Implemented "build custom order" feature to choose flavors, toppings, and flair

**Chat App** | iOS, Android app — Feb 2021 - present
- Facilitates exchange of messages, pictures, and geolocation for chat room users to plan social gatherings
- Supports secure login; send photos, location; cloud storage; offline use
- Developed on Expo.io with React Native for iOS/Android; Google Firestore authentication, Firebase Cloud

**Meet App** | chriskahdian.github.io/meet — Jan 2021 - present
- Allows authenticated users to view global web dev events with option to filter by city
- Conducts serverless functionality via AWS Lambda for OAuth; uses Google's Calendar API; visualizes event data using Recharts
- Built using React, React-Bootstrap style library

**MoviesMoviesMovies** | moviesmoviesmovies.herokuapp.com/client — Nov 2020 - present
- Movie exploration app for which users can make an account and browse titles, and read original 1-2 line movie summaries
- Features movie search by name; browse by director, genre; save favorite movies; edit user account
- Built using React, React-Bootstrap style library, MongoDB database, Heroku

## Experience

**Onica** | Staff Accountant — Santa Monica, CA | Jan 2019 - Aug 2020
- Developed billing structure for AWS services
- Reformed accounts payable coordination

**Vision Technology** | Staff Accountant — El Segundo, CA | Mar 2018 - Nov 2018
- Optimized billing system spanning 9 programs into 1 database
- Restructured asset database

**Cachet Financial** | Operations Accountant — Pasadena, CA | Mar 2013 - March 2018
- Compiled complex operational procedures onto streamlined schedule
- Trusted with responsibility for high volume receivables daily

## Education

**CareerFoundry** — Aug 2020 - Apr 2021
- Full Stack Web Development

**UC Santa Barbara** — Sep 2010 - Sep 2012
- BA Economics and Accounting
